## Official charity partners

Every year, Lincoln City fans choose four official charity partners to receive priority for fundraising support promotion through our social media channels to raise their profile. For 2023 these are as follows:

- Lincoln City Foundation (*Charitable arm of LCFC*)
- Samaritans (*Charity Partner*)
- St Barnabas Hospice (*Fans Vote*)
- Marie Curie Lincolnshire (*Fans Vote*)

For more information on the work of these charities, please click on their link above.

Throughout the season, the club is committed to work with these charities to assist with fundraising activities and raise their profile. This includes giving them the opportunity to hold bucket collections at games and providing signed merchandise to raffle.

---

## Charity and fundraising requests

All requests from non-charity partners should be emailed to [charity@theredimps.com](mailto:charity@theredimps.com). These are then collated and at the end of every month, we hold a prize draw. The winner receives a signed shirt to raffle for their cause. As the draw takes place on the last day of each month, requests **must be made early**. Sending in a request for an event in the middle of the current month, for example, is too late as you will have missed the relevant draw.

---

### ***Please note:***

- All requests emailed to [charity@theredimps.com](mailto:charity@theredimps.com) will automatically be entered into draw at the end of the month before their event. For example, if your event is in April, you will be entered into the end of month draw in March.
- Requests will not be rolled forward however you are welcome to apply again each month.
- Due to the number of requests received, we will only contact the monthly winner to let them know they were successful. We cannot reply to everyone to let them know they were unsuccessful.
